

# PVAO SKYPE VALIDATION

In the relentless pursuit of PVAO to validate all pensioners, the agency is taking advantage of the use of Skype as one of the many means of communications technology that will allow us to connect with our pensioners from any location with the help of Internet.

Through the utilization of this technology, PVAO will be able to provide real-time, hands-on feedback and cost-effective means of validating our pensioners. This mechanism will spare the veterans and their surviving spouses from personally submitting their Pensioner's Update Form (PUF) and monitoring their respective entitlements from PVAO.
